

KNOWLEDGE IS POWER

At Kallion Farms we understand the importance of gathering data about our cattles' performance. Our cattle are DNA tested with both Pfizer and IGENITY®. Do you know what age your heifers start breeding? Do you know your cattle's feed efficiency? Do you know your animal's average daily gain? Do you know your cattle's shear force measurements? Do you know how your cattle grade? At Kallion Farms we know the answers to these questions and we have the data to back it up. Empower yourself with knowledge.

At Kallion Farms we have Brahmans that:

- BREED AT 12 MONTHS OF AGE
- TAKE 5 LBS OF FEED TO GAIN 1 LB
- AVERAGE DAILY GAIN ON GRASS IS UP TO 3 LBS
- 3.5 LBS WARNER-BRATZLER SHEAR FORCE
- CATTLE GRADING MEDIUM TO HIGH CHOICE
